

A FAMILY OF FOUR · 60 DAYS · SOUTHERNMOST TO NORTHERNMOST

leave a little love

along the way

We stop in real places, help with something local that matters, and tell the story of the people already doing the work.

THE BROCHURE

Who we are, what the journey covers, what every community gets back, and how to be part of it.

OUR STORY

We stopped waiting for the right time.

Somewhere between work, bills, schedules and exhaustion, we were losing pieces of the life we actually wanted to be living. We are two parents and two little boys, and we decided the things that make us feel most alive have never been about doing more — they are human connection, helping people, being a little ridiculous, and making memories our boys will still talk about.

So we are driving from the southernmost point of the country to the northernmost point. The miles are beside the point. We want to know this place through its people: the tiny business built from nothing, the nonprofit running on heart, the family carrying on a tradition. We want to help. And we want to tell those stories.

EVERY CHAPTER GIVES US THREE THINGS

Something to learn

From the people who actually know the place.

Something to experience

The real one. The one our boys talk about for years.

Something to give back

A shoreline, a rescue, a fundraiser. Our hands, not just a camera.

WHAT WE BRING TO EVERY COLLABORATION

Two edited vertical videos

Little episodes, posted to Instagram, TikTok and Facebook.

Live stories

Tagged and linked while we are still there.

Ten-day turnaround

Every time.

10–15 edited photos

Full usage rights. Yours to keep.

An honest parent's review

What a family should know. Why we'd come back.

A hand where it's needed

A relationship, not a one-off.

WHAT EVERY STOP GETS BACK

We show up with our hands, not just a camera.

Volunteer hours

Time on the ground with a local cause: a cleanup, a build, a drive, a shift.

Storytelling

Photo, video and a written feature about the people doing the work — not about us.

Usage rights

Everything we make at your stop is yours to keep and reuse, free.

A tiny gift

Two original sticker designs from our own small business, Social Sticker Co. — 80 stickers made for the place, the adventure or the event.

HOW TO BE PART OF IT

Tell us what your community needs. A cause worth an afternoon, a person worth meeting, a tradition worth showing off. If you can help with a place to stay, miles, fuel, gear or an introduction, that helps too — but the story comes first, and we say plainly where things stand: route, timing and funding are still coming together.

“It’s about how much can happen when we choose to show up.”
